

Avijit Chakravarty

Senior Web Developer

avijit.chakravarty@wmich.edu

Mobile: 2693547812

Tech-savvy Web Developer proficient in fundamental front-end languages and server-side languages. In-depth knowledge of PHP, MySQL and CodeIgniter. Analytical and precise professional with 10+ years of hands-on experience taking charge of front and back-end web development. Skillful configuring servers and creating databases for functionality and designing and developing APIs. Hardworking collaborator with track record of superior results.

Education

Master of Science in Cybersecurity, 01-2023 - Present

Western Michigan University, USA

Work History:

Senior Web Developer, 08-2018 – 12-2022

SFX Greenherald International School, Bangladesh

- Spearheaded the creation of highly functional websites tailored to meet diverse client needs and business objectives.
- Oversaw the entire development lifecycle, from inception to delivery, ensuring milestones were met and projects were completed efficiently.
- Proactively conducted audits on website functionality and IT systems, while staying abreast of cutting-edge web development practices through continuous education and participation in industry events.

Senior Software Engineer, 05-2015 - 03-2018

Arena Phone BD Ltd., Bangladesh

- Collaborated with customers and senior executives to understand and evaluate customer requirements, ensuring alignment with business objectives.
- Developed customized web applications by writing code and working closely with cross-functional teams, including business analysts and infrastructure specialists, to deliver high-availability solutions for critical applications.
- Addressed technical issues through thorough debugging, research, and analysis, while also conducting rigorous testing and seamless program installation into production environments.

Software Engineer, 01-2011 - 11-2014

Nesh Media BD, Bangladesh

- Spearheaded website development by translating mockups into functional web assets using HTML, JavaScript, AJAX, and JSON coding, ensuring seamless user experiences.
- Collaborated within project teams to dissect program specifications and streamline organizational processes, while also contributing to the development of specific modules.
- Executed back-end development tasks using PHP to uphold website integrity, security, and efficiency, while also conducting ongoing maintenance and patching to optimize interface viability post-launch.

Web Application Developer, 02-2008 - 12-2010

WeDoTheWebs, Bangladesh

- Led website development initiatives by transforming mockups into functional web assets using HTML, JavaScript, AJAX, and JSON coding, ensuring seamless user experiences.
- Designed graphic elements and crafted HTML trial templates for customer websites, combining expertise in JavaScript and Object-Oriented Programming to achieve successful designs.
- Leveraged PHP, SQL, and JavaScript backend libraries to enhance programming resources, while conducting thorough testing and debugging of web applications to ensure reliability and functionality.

Skills:

- PHP
- My SQL
- JQuery
- CodeIgniter
- Web Application Development
